EXAMINER'S COMMENT

1. Claim 9 is hereby allowed. The restriction requirement between the species, as set forth in the Office action mailed on June 8, 2010, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claim 19, directed to the embodiment of Species B, is no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 1-8, directed to Group I, the method for positioning a flexible plate on the carrier, remain withdrawn from consideration because these claims do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Dan Smith (reg. no. 66,743) on March 11, 2011.

The application has been amended as follows:

IN THE CLAIMS:

Claims 1-8 have been canceled as being drawn to the non-elected invention, non-elected with traverse in the response dated August 9, 2010

In claim 9, line 5, the phrase --from the table-- was inserted after "plate".

In claim 9, line 8, the phrase --on the carrier-- was inserted after "plate" (second occurrence).

In claim 9, line 11, the phrase --while the printing plate is being transported-- was inserted before "from".

The above changes to claim 9 were made to better clarify how the plate is being transported and the positional relationship of the structure during the transport of the printing plate from the table to the carrier.

IN THE TITLE:

Please note the title of the invention has been changed by the Examiner to the following to more accurately reflect the claimed invention:

--AUTOMATIC MOUNTING SYSTEM FOR POSITIONING A PLATE ON A CARRIER--

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Leslie J. Evanisko** whose telephone number is **(571) 272-2161**. The examiner can normally be reached on T-F 8:00 am-6:30 pm.
